~~John H. Smith~~  
~~Mark S~~  
~~Mark O~~

~~Mark S~~

~~Mark S~~

Corry - From Tim W. and Gary  
+ other teacher

(2)

If SPG. ~~more~~ we trying in leading if we  
assess it?

Alex W. Need to look at bringing in more depth  
Inherited Training Module from 2001

Suspect - 1 day B Asses 1

- SPG all weeked - no assess

Mark S. - Can't lead lead is a WE  
Need to come as a leader + modify  
is WE to guiding.

Gary Teach at bottom and top  
remove lead in middle

Gary big jump TRAT to SPG

Mark S. modify leading to guiding.

Logbook - before assess to stop dangers  
on way

Corry Teachers want TRAT not lead anyway.

~~Mark S.~~

~~Mark S.~~ ~~WW what is beyond~~

Alex W SPG as per Tim Pudge can do -

~~can~~  
run assess at simple venue  
TR at simple venue

most would choose to go to these venues  
Lead safe suitable pitches to take students.

If Questioned TRATs would get mixed answers  
as to what is involved

SPG will formalise what is OK  
upto 50m single pitch.

Alex W. (Garricks) (14 or 20 already leading SP's

Garry worried big step FRA to SPG

Alex Massive jump

Garry Ben Thompson feels might need training he has paid for re. SPG.

Tony - seem logical to decide now what package should be.

Garry - All assmds at same level. Tim felt but at last assessed

Dave - is just name change

Alex W. - No a clarification on grey areas

Mark S - TNA not peer as leading SPG would formalise Rules sense for inst to have good

Garry worse environment in Tas If can't pass note.

Nick - agrees it can't pass then can't pass. need to have in ass protocol.

Alex W. - can assess judgement on the day.

Garry - could impact TCA if problem.

Mark S - can't see what happens

Nick - we need to be sure so no grey area if problem when TCA goes to court.

Mark O - I don't know what is grey area. Eg. Daley's assil should be TPA.

Mark S. - Too difficult to list all areas

Garry top bottom access easy if good staff

Alex W. Ass from kept 10 yrs we can show they were ok or not - in future

with  
Tony We should ~~in fact~~ articulate guiding principle

Dave See top bottom, waves, etc

Mark O. If too limiting, no point in pushing up to person to stay within

Alex W. Overarching to stay within Eds. Stds. Assess to these stds.

Ben View changed on the New stds. Eds is minimum TCI4 can add to this We have avoided in the past Are we keeping BA 1 + increasing TNA to SPG.

Mark S. Is there a need to keep TNA.

Gregg I would keep TNA - all teachers want

Mark S more complex to do both

Alex W Pushed by Nat. Dir. Package to SPG. Lots of paperwork. If TNA as from different areas. If audited by dept - coroner would question.

Mark S. If TNA + SPG - clients could be confused

Tony Dramatic difference - clients don't want Reason to demo lead was to show climbing.

Mark O. As teacher don't want to upgrade. Less people. Teachers want better

Dave. SPG is good for guiding - no so for teachers

Mark O. Found TCI4 TNA - not so diff from ACIA SPG.

Dave. Rarely opportunity to lead.

Mark O. Even is vic hard to do.

Dave Why not get RPO

Mark O - I don't dis away to get SPG

Marko. Too hard to get over 16.5 + o's quality

(5)

Nick Keep TNA's + only offer SPG in future

Alex W. TNA dropping out so could work.

Could keep TNA's

From outside we assess as well + TNA

but several TNA lead assessments did well  
but no rescues.

led to greyness

~~we~~ We need to clarify if TNA can lead.

Nick Only difference between TNA + SPG  
rescue or intermediate runners?

Alex W Clarify greyness  
all TNAs would give different answer.

Tony TNA is top roping qual. bottom or top  
SPG is a leading qual - different intent.  
If merge becomes grey.  
I am leading in a lead situation  
No of people that it matters if few  
Different qualifications

Alex W In order to recent had to lead.

Tony. Because had to show were climbers - not they else.  
Personal skill set

Mark S Do have to lead then.

Gary or to are w words as is not belaying on cliff

Dave if TNA then need ~~that~~ qual to belay w/ student.

Mark S.

Gary SPG need to be organized.

Mark S Comes with individual judgement

Gary Need some guidelines

Alex W Or if obviously outside qualifications  
SPG should be able to easy access for sector

Tony Good rock good visibility

Toy Could use who will if had another guide

Alex Disagrees

Toy Comes back to std be expect.

Nick Too prescriptive to say no less with student  
belly at who will - no good

Paul O. can it no good

~~Alex~~  
Nick what is policy if see bad practice

Alex Usually me that sorts this out

Toy Have had inst. claim they had TQIA qual when didn't.  
Polar way TQIA or equivalent  
Adversive Activity Code + Ed Dept - Grade very similar.

Alex W. How do we fit with TQIA  
Do we stop assess TQIA  
Do we assess TQIA + get rid of BPG.

~~Toy~~  
Nick Don't necessarily need to say we neglected  
to provide all training needed to pass assess.

Alex W. Easy to fill someone.

Toy Assess to minimum std. Always move to know.

Paul S. can't teach everything.

Paul O How is new info given to instr.

Nick High priority to Newsletter with modern techniques

~~Alex W.~~  
Chris - Use

Nick - not ready yet

Toy - Teachers will still come + want TQIA only.  
Value in 4 quals

Alex W. TAFE will align to <sup>what</sup> TQIA ~~with out~~ want  
Only TQIA teachers on list  
Next guiding.

Alex

Mark S. Is worth talking to TRAs? Canvas opinion

Tony NPG not needed generally  
Focus is TRAs/SPG

Mark S. ACIA SPGs not generally leading but more skilled than TRAs

Mark O SPG removed leaders from climbing instruction  
~~SPG removed~~

Alex W We have BAI so difficult to ACIA  
Don't care what we have as long as grey area removed  
TRAs assessed as SPG for last 3 yrs (except rescue)

Mark O Asked during assess to teach belaying, etc

Alex W Need to ease TRAs assess or admit we've seen  
doing SPG assessments for 3 yrs.

~~Mark O~~  
Alex W Need to consider removing leaders as this  
is the difference.

Alex W Eg. Luke if good rigging + dispatching - lead not good.

~~Mark O~~ Tony Is this what we want. Climbs inst. should show climbing.

Alex W Is essence safety or taking climbing.

Mark O Have enough many climbers is vic - good climbers bad leaders  
Set of Arroyo guide - late - drag up climb.  
Bad protocols + demos. + role modeling  
Teaching climb is not about good climb

Alex L need to be a climber.

Cony - Easier to sort problems if climber

Alex W. Ass soon coming up.

~~Mark O~~  
Nick Any problems need to be disseminated to all involved

Mark S. How we go SPG or retain TRAs.

~~Mark O~~ We don't see top belaying.  
~~Do we~~ We have problems if we assess different  
stds at BAI TRAs NPG.

Alex W. Should allow candidate to choose site  
Difficult when lots of candidates.  
Have pushed TRAs to go to CAPM. Is this fair  
not assessing base skills.

Garry Need consistent between assessors

~~Alex~~  
Alex

Assess should be at chosen site by ppt.  
If discrepancy TAFE has to answer questions.  
Don't instantly fail.  
Can stop for safety + change to training.  
Paid for 2 sessions - respect payment for role.

As  
TR  
lead.

~~Alex~~

Alex C Had failed. initially.. Is <sup>it</sup> useful to do 2nd session?

Tony March Cradle Traversa anniversary Soaked Glenfordia  
TCIA members welcome

Alex U

Candidates talk - Alex under pressure. = less support from TAFE.  
Asks TCIA to be on same page. - all assessors should understand TAFE policy for assessment.  
Have capacity to be poor mentor + teacher.

Dave Is there a doc

Garry If someone unsafe - stop them + explain to them  
Don't expect to pass - but continue session if possible.

Alex L

If someone asks - can I pass him here.  
Outline is briefing definite facts by all assessments.

Mark S

Ok to offer next session as training. If 1st session unsafe.

Alex L

Are we TRAT assess.

Mark S

SPG upgrade is good PD for TRAT

Alex W

BAI 1 day Train  
SPG 2 day TRAT + Lead Train  
RPG 1 day Train

Alex L

Do candidates get ass sheet

Alex U

Yes. Can go with assess.

Alex C

What can TRATs do.

Nick

Can put in Newsletter.

Mark O

Would like written clarification of TRAT + benefits of SPG.

Alex W

Was clarified online.

Mark S

Purpose SPG. Offer workshop upgrade or can stay as TRAT.

Dave

TRA more useful than SPG - would go to RPG next.

Alex W. Have PK is back - can fund workshop.

Dave If has SPG are we more aligned?

Mark S. Yes.

Alex W TCIA harder than ACIA assess

ACIA might not accept TCIA qual as work funds (ie ACIA assess)

~~Mark S~~

Alex W Sound access top + bottom. CFTT Whit good rock

less som

Mark S Walk in + out access

Alex W Below 50 good rock good cons easy access to top + bottom.

Mark S Gary What if guide injured eg Alchemy.

Alex W. Will amend TRA to not leading ~~SPG~~ simple pitch + notify, Nick who will newsletter.

Nick Garys main opponent of SPG - are you happy.

Gary ok with SPG - + keep TRA + offer workshop.

Dave Likes idea of SPG as other states have it would you have drop off of people come for SPG ~~one~~ if moved from TRA

Alex W - no difference.

Avon

Nick What do we do about Nick + Luke assesse + raised SPG. ~~but~~ but didn't do rescue

Mark S Offer workshop. If bad TRAT, comes to wshop - offer another.

Nick Offer wshop locally not normal assess weekend should we formally assess rescue for these?

Alex Yes - downgrade to TRA.

Nick will do newsletter this month. Can Alex W formally let me know.

Alex W. will notify

Alex W Donated to TAFE 1500 matched by TAFE  
Be good to get another donation

Nick Do you want 2000

Alex W Important to keep new.

All agree 2000 to TAFE  
Treasurer to act on it

Alex W Indoor 2.5 day course - Many schools using indoor walls without qualifications  
2 day train - some time out then 1 day assess  
Removed logbook 54 assess  
Recert by 2yr logbook.  
Was expectation of passing  
Gavin done well - kept assess fair

Gavin Expectation to get good regardless, using mechanical devices.

Mark O What about wall quality

Alex W Most reasonable  
Assessments expense 800 for SPG. excl fuel + gear + 155.  
Candid pay 450 - Training offsets this loss.

Dave Does break even

Alex W Sometimes - never make profit on climbing.  
Will send out new SPG ass form  
Will send Nick Train Policy to see if anything added

Nick who will notice SPGS

Alex W I will
